For a band with one independent recording under its belt, the White Rabbits have a lot going on. They appeared on Letterman in July - "Maybe U2 cancelled," joked bassist Adam Russell - and a feature-film documentary is in production. (See <http://www.whiterabbitsdoc.com>.)

Russell credits the band's publicist with the Letterman gig, and filmmaker Andrew Droz Palermo is a friend of the band dating back to some members' high-school careers.

But Russell said these early successes are a sign that people believe strongly in the band. "Having close friends that work with you does pay off sometimes," he said.

The six-piece New York band - which got its start in Missouri - is certainly worth believing in.

The White Rabbits' sound is percussion-heavy - the band features a pair of drummers - with roots in the ska and punk of bands such as the Specials, the Clash, and the Jam, along with reggae and Style Council.
