As we plan our Easter egg hunts and Easter Brunch feasts with our families, American troops are thousands of miles away from their loved ones and fighting for our country. **Every year our troops fighting the War on Terror spend the holidays Afghanistan, fighting to keep America safe**

They are going to be missing their families on Easter Sunday, April 8th!

Just think of all your family's beloved Easter traditions: boiling and coloring Easter eggs, going to church together on Easter Sunday and coming home to enjoy a special Easter feast with dear family and friends, putting on Easter egg hunts and giving baskets full of candy to the kids. Our troops will be missing all of that!

These care packages do a lot to help our troops while on the front lines and fighting terrorists over in the Middle East. So many of them have families back home they miss and cannot see. **Some of our troops have already missed Christmas with their families;** they have missed loved one's birthdays; some have even missed the birth of their own children!

No one wants to be far away, missing their families, but that is a sacrifice our troops make to keep us safe. **We owe them a little gratitude!!** Our Troops don't ask for anything, but they appreciate everything we send to them.

During these tough economic times, families of troops are struggling to get by. There is a fear that they will have fewer resources to send packages to their loved ones in war zones. This is why it is so important for you and other patriotic Americans to send what we can to our troops. **We must never let them forget that we are not only thankful for our families here at home, we are thankful for their selfless sacrifices for our great country.**
