### Defense Appropriations Bill Mirrors Loeb sack Amendment to Block National Guard Cuts

Washington, D.C. – Congressman Dave Loeb sack released the following statement today after the House passed the FY 2013 Department of Defense Appropriations Act, which blocks cuts to the 132nd Fighter Wing and Air National Guard units across the country for one year and requires a Government Accountability Office cost-benefit analysis of the Air Force’s proposal. This action builds on Loeb sack’s bipartisan amendment in the FY 2013 National Defense Authorization Act (NDAA) to prevent cuts to the National Guard personnel and aircraft in Iowa and across the nation. His amendment was approved by the full House of Representatives as part of the NDAA in May.

“The passage of this legislation is another step in the right direction for the Airmen with the 132nd who are some of the most experienced, most cost effective, and best performing in the country. I have fought the Air Force’s ill advised proposal from the beginning and I will continue to work to make sure the dedicated men and women of the 132nd do not see their positions eliminated.”
