1. Former FBI Translator and Whistleblower Sibel Edmonds has exposed, among many other disturbing revelations, that Osama bin Laden and "Al Qaeda" (which simply means "the base") were working with government intelligence operatives right up until the morning of 9/11 (and perhaps beyond):

2. The 9/11 Commission Report has been exposed as almost entirely untrue by John Farmer, the Dean of Rutgers School of Law--Newark who served as Senior Counsel to the Commission:

3. No reasonably intelligent and rational individual could possibly watch the full two hours of this video and still honestly believe everything the American government has told its citizens about the events of 11 September 2001:

Why is the Mainstream Media Not Demanding the Truth About 9/11?

4. The 9/11 Truth Movement ebbs and flows ... losing credibility with each Alex Fox media stunt and every (planted?) lcke-ish nut claiming alien lizard people or Apocalyptic demons are to blame ... then regaining momentum whenever one more brave citizen opens their mind to the harsh facts and horrible ramifications of what the truth might be, and demands an unbridled investigation knowing they will be called "kook" or "communist" by scared Sheeple seeking to maintain the bliss of ignorance. This will go on, ad nauseam and forever, until the Truth of 9/11 is fully investigated and openly exposed.

So again I ask, why is the mainstream media not demanding the truth about 9/11?

Whatever happened to investigative journalism?
