SPRINGFIELD – December 12, 2011. Governor Quinn today issued a statement in support of an economic growth and tax reform package currently before the General Assembly.

“I commend the House, Leader Barbara Flynn Currie, Leader Tom Cross, Rep. John Bradley and Rep. David Harris for their bipartisan and diligent work to pass a package that will bring much-needed relief to working families in Illinois and help employers put more people back to work.”

“Before veto session, we brought the leaders to the table with the goal of delivering help for both hard-working families and employers. This package meets those standards and is a win for the people of Illinois.”

“Investing in working families is good for Illinois. The Earned Income Tax Credit will put more money in the pockets of everyday working people, which in turn allows them to invest that money back into their local communities. Improving the value of the standard personal exemption will provide relief to those trying to make ends meet. Investing in employers is also good for Illinois, and this package is targeted to spur job creation and economic development all over the state.”

“I encourage the Senate to take swift action tomorrow.”
