WASHINGTON, D.C. – February 15, 2011 - Senator Tom Harkin (D-IA) today announced that the State of Iowa will receive \$773,175 from the National Highway Traffic Safety Administration. The funds are a part of the U.S. Department of Transportation's (DOT) State and Community Highway Grants to support state highway safety programs. Harkin is a senior member of the Senate panel that funds transportation initiatives.

"Iowans should feel safe when they travel on our highway system," said Harkin. "These funds will allow Iowans to continue to drive comfortably and safely across our state."

The National Highway Traffic Safety Administration is a division of the U.S. DOT and oversees all safety initiatives on the nation's highways. Their mission is to save lives, prevent injuries, and reduce economic costs due to road crashes, through education, research, safety standards and enforcement activity.
