On Tuesday, 12/17/13 at approximately 8:25 a.m., the Scott County Sheriff's Office took a report from a concerned citizen of a suspicious person and vehicle near the Neil Armstrong Elementary School in Park View. The suspicious person and vehicle resembled some of the same characteristics as those reported recently in rural Scott County and Davenport. The vehicle was gone upon the Deputies' arrival, but the citizen had obtained a plate number.

The subject was found to be from the Clinton area. A Scott County Detective along with the assistance of a Clinton Police Detective followed up on the reported information. It was found that the subject had legitimate business in the area and is no longer being looked at as a suspicious person.

The Scott County Sheriff's Office appreciates the efforts of the citizen in this circumstance and encourages citizens to be vigilant and immediately report suspicious information, especially related to activity around schools or involving children.
