(Kansas City, Kan., Aug. 21, 2012) – The U.S. Environmental Protection Agency Region 7 and Iowa Department of Natural Resources will host two public availability and informational sessions to share Muscatine air quality information and public participation opportunities Aug. 28 at the Environmental Learning Center in Discovery Park.

The event is free and open to the public. Subject matter experts will be available to answer questions on all air quality issues including specific air pollution types, monitoring and community resources. Materials and information will be available in English and Spanish.

WHO: U.S. Environmental Protection Agency Region 7, Iowa Department of Natural Resources

WHAT: Public Availability and Information Sessions on Muscatine Air Quality

WHERE: Environmental Learning Center, Discovery Park, 3300 Cedar St., Muscatine Iowa

WHEN: 1-3 p.m. and 7-9 p.m., Aug. 28, 2012

Each session will be identical so the public can choose the session they would like to attend.

Environmental Agencies Invite Public to Discuss Muscatine Air Quality Issues and Participation Opportun
