Dr. Meir Schneider, PhD, LMT, will share his self-healing knowledge at lectures, workshops and individual sessions in Davenport, Iowa June 22-28.

Meir Schneider, PhD, LMT, an international health educator, author, therapist and inspirational speaker, will be in Davenport, Iowa, June 22-28, 2011. Dr. Schneider will be presenting a lecture entitled "Overcoming Vision and Spine Problems" on Thursday, June 23, 2011 at 7:00PM at the Institute of Therapeutic Massage and Wellness, 1730 Wilkes Avenue, Davenport. Dr. Schneider's transformational workshop, "Self-Healing Through Movement and Vision Improvement" will be offered on Saturday and Sunday, June 25th and 26th. Private sessions with Dr. Schneider will also be available.

Born blind, Dr. Schneider read by Braille until the age of 17, when he embarked upon his own healing journey. Through years of research, he is now able to read and write without glasses. Today he holds an unrestricted California driver's license. Dr. Schneider is regarded as one of the leading world experts on Natural Vision Improvement, a method of working with the eyes non-invasively. His vision improvement exercises are designed for individuals who are motivated to learn how to improve their vision, whether they have a simple error of refraction, a serious pathology, or suffer lifestyle or profession-related eyestrain.

Over the years, Dr. Schneider has developed a comprehensive system of preventative and rehabilitative healthcare. His self-healing method is effective with repetitive strain injuries, back problems, stroke, paralysis, neuromuscular conditions, and circulatory, digestive and respiratory problems. Tens of thousands of people have used his holistic methods to improve their health and function.

For more information about the Davenport lectures, workshops or private sessions, call Ron Thiele at (563) 570-8552 or visit the School for Self-Healing on the web at <http://www.self-healing.org>.

About The School for Self-Healing The School for Self-Healing is a non-profit school that teaches and provides movement work, massage, vision therapy, and cures for blindness in San Francisco as well as around the globe for a wide variety of disorders, diseases and injuries. The school provides private sessions, free and low-cost public workshops, and training in the self-healing method.

Founder Meir Schneider, PhD, LMT used the Bates Method to cure himself of congenital blindness, and went on to develop "The Meir Schneider Method of Self-Healing Through Bodywork and Movement." The technique has been medically documented to help people with a wide variety of degenerative conditions, such as muscular dystrophy, and can help increase mobility, improve the function of body systems, relieve pain, improve vision, and increase productivity.

Meir Schneider is celebrating his 40th year of working with his eyes and would like to share his knowledge through lectures, workshops, and individual sessions. He helps patients overcome vision problems, back problems, arthritis, and neurological problems.
