Congressman Dave Loebsack (D-IA) will visit a local Davenport skilled nursing facility (SNF) this Wednesday to meet with patients, residents, family members and staff to discuss how and why nursing home care is vital to local seniors' rehabilitative care, important to the local jobs base, and an essential part of the equation to help bring about efficiencies in federal health care spending.

Representatives from the Iowa SNF community will detail how facilities across the state are evolving to meet the growing needs of an increasingly diverse, rehabilitation-oriented patient population and how Medicare and Medicaid payment policies are impacting post-acute and long term care for the state's elderly and disabled.
