MOLINE, IL-- As part of Western Illinois University-Quad Cities' 100th anniversary celebration, set to begin in 2012, WIU-QC staff are calling on Quad Cities-area references to search their photo albums and memory banks.

The WIU-QC Anniversary Committee is seeking photographs and/or media and information related to WIU's presence in the Quad Cities (students and instructor photos; building shots; etc). The anniversary committee is also looking for individuals to interview who may have attended classes at Villa de Chantal and other original WIU sites; who had a relative attended WIU classes in the Quad Cities many years ago; and former professors and students who taught or attended classes in the Quad Cities; etc.

Photos/information and interviews will be used to create a documentary of WIU's history throughout the years in the Quad Cities to air on WQPT. WIU University Television and University historians/archivists will produce the documentary.

Slides, photographs, videos and stories will be collected, copied and returned to the original owners, who will receive a photo credit for the contribution(s). Electronic photos and video files are also welcomed.

To contribute photos and other information by Dec. 30 , contact Tami Seitz at

([309\) 762-9481](tel:3097629481) or TS-Seitz@wiu.edu . Photos, at least 300 dpi JPEG format, should be emailed to Seitz.
