The Rock Island Library has partnered with the University of Illinois Extension on an opinion survey to learn how we can better serve you as residents of the Quad Cities region. The purpose of the study is to gain a better understanding of how the public accesses library services, determine what services are of interest, and understand public perception about our organization.

If you've previously taken a City of Rock Island survey, please note that this is a separate study, one that focuses on library questions and perceptions only. We would appreciate a few minutes of your time on these questions as well.

Individual survey responses are anonymous and confidential and will be viewed only by University of Illinois Extension staff. Results of the survey will be available to you. Please complete the survey by Oct. 5, 2013.
