UFOlogist David Sereda hosts this video program that takes a look at previously-classified footage shot by NASA that shows unidentified flying objects up to 2-3 miles wide. The program is three hours long and will likely be broken into two 90 minute segments over two nights. The program is heavy on science, quantum physics and theory and is backed by indisputable evidence made by a federal government agency.

The free program meets on Thursday, Mar 20, 2008, 6:00 PM at Atlantis 235 W 35th St Ste 5B Davenport, IA Davenport, above Nick Tarpein Martial Arts. Sign-up at [www.meetup.com](http://www.meetup.com) or call 563-445-7331.
